

ONSOLVE MIR3 MOBILE APP POWERFUL ALERTING SERVICE AT YOUR FINGERTIPS

Send critical alerts to recipients and get the feedback you need any time via your iPhone® or Android® mobile device. OnSolve MIR3 offers the features you need for effectively managing notifications on the go.

In urgent and time sensitive situations, the ability to communicate with employees, customers and other stakeholders is essential, whether you are in front of a computer, or in the field. OnSolve MIR3 allows you to respond to and recover from critical events quicker and more effectively while on the go. OnSolve MIR3 was built with a traveling workforce in mind. Utilizing mobile data networks and Wi-Fi, your employees will receive alerts even if they don't have coverage through local providers. The easy to use interface works across all major platforms allowing users to receive alerts and respond quickly.

ONSOLVE MIR3 CAN ASSIST YOUR ORGANIZATION WITH:

- Business Continuity & Disaster Recovery
- IT Alerting and Response
- Public Safety Threats
- Enterprise-wide Communications
- On-demand Conference Calls
- Employee safety and situational awareness

INITIATOR FEATURES

- Create new alerts or edit and resend existing ones directly from your mobile device.
- Analyze real-time message delivery reports.
- Locate recipients with GPS to direct to safety or to take action.
- Send alerts in multiple languages.
- Add response options to allow recipients to engage in two-way communication.
- Record an alert through device's microphone and save it for immediate or scheduled delivery.

OnSolve: Always On. Solving Problems.

OnSolve is the market leader in real-time, mass notification and collaboration solutions used by the world's largest organizations. The OnSolve suite of critical communication tools is a key component of effective business continuity, emergency response, IT alerting, and security programs around the globe.

RECIPIENT FEATURES

- Join a conference call with one touch.
- Respond to an alert through the app for faster communication.
- Store messages for quick retrieval and future referencing.
- Enable push notifications for immediate message delivery.

WHY ONSOLVE MIR3 TECHNOLOGY?

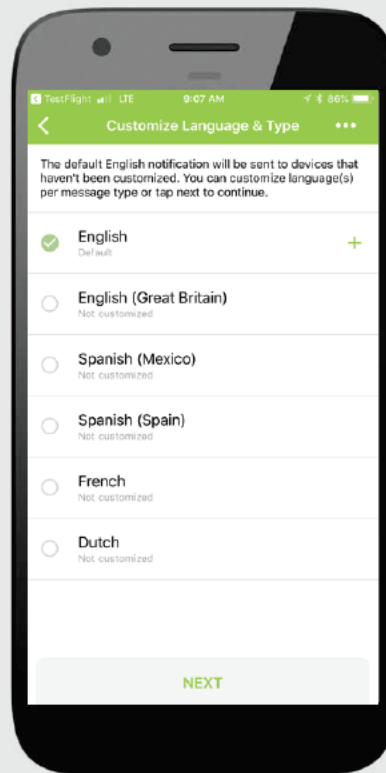

Safety, Continuity, Efficiency and Productivity

When an impactful event happens, key personnel must be notified and response teams mobilized. Rapid, intelligent, two-way, mass communication empowers both business leaders and public agencies to mitigate disruption while ensuring safety and sharing critical information. MIR3 provides a layer of awareness that helps monitor operations, alert responsible parties, and respond appropriately as a situation develops and is resolved, keeping personnel safe and your business or agency running smoothly around the clock.
