

247 Active RFID Asset Management

The Site-Secure wireless identification asset management system (247) is one of the most comprehensive RFID solution on the market to track critical assets in any vehicle using RFID technology. The standalone system's heads up display fits any specialized vehicle; ambulance, fire, police, utility truck to monitor equipment with color coded visual alerts within the vehicle. The 247 will assist in reducing asset losses and meeting compliance standards.

YOU LEAVE **NO ONE** BEHIND

We Leave **NOTHING** Behind
